ELEGANT DESIGN

Event Designer to the stars;
Steven Duggan Events, provided the stunning backdrop for our
Winter Wonderland theme 2018, with floral displays to rival the
'Adele' and 'Elton John' parties they've styled recently.

At JBCFF, our aim is to continually create beautiful and
memorable events that impress even the most seasoned socialites
and corporate attendees.

JULIAN BENSON

CF FOUNDATION

Registered Charity Number: 20201626

Julian was diagnosed with Cystic Fibrosis at the age of 2.
He was given a life expectancy of 13.
The Julian Benson CF Foundation gained its charitable
status in late 2018.

PROJECT 1

ACCOMMODATION FACILITY

A caring, supportive accommodation facility for families of CF patients during hospitalisations.

Long-term hospitalisations are common for people with Cystic Fibrosis. CF affects people of all ages, from all areas of Ireland, who regularly come for treatment in Dublin, separating them from family; parents, siblings, spouses, partners and children for long periods of time.

The support of family and friends during these times is crucial.

Aside from the illness and stress of a hospitalisation, many families endure additional pressure, financial and emotional, just trying to support their loved one.

We believe no family should have to endure such hardships and our facility will provide a home from home, enabling family members to stay in close proximity at a critical time.

PROJECT 2

WELLNESS RESPITE RETREAT

A wellness, respite retreat where patients and their families can go to spend time together, when they require supervision.

We will provide a relaxing, medical-grade centre, where rest, respite and recovery will be encouraged. Outside the confines of the hospital, patients and their families can stay whilst also receiving IV treatments and vital physiotherapy with medical supervision.

Complimentary therapies such as reflexology, mindfulness and yoga will be offered, with balanced nutrition and family facilities; all of which have been scientifically proven to speed up the recovery process.

For some families, their stay at our centre may be the last time the family spends together. We will aim to make their stay as comfortable as possible.

WHAT PEOPLE SAID...
